NOTIFICATION.

No. 4403—L.A. Bangalore, dated 8—10th October 1951.

As required by Rule 69 of the Rules of Procedure and Conduct of business in the Mysore Legislative Assembly, the following report of the Select Committee on the Mysore Irrigation (Amendment) Bill, 1951, with the amended Bill is hereby published.

G. S. VENKATARAMANA IYER,
Secretary,
Mysore Legislature.

REPORT OF THE SELECT COMMITTEE ON THE MYSORE IRRIGATION (AMENDMENT) BILL, 1951.

(*Presented on 8th October 1951.*)

We, the Members of the Select Committee to which the Mysore Irrigation (Amendment) Bill, 1951, was referred have considered the several clauses of the Bill in detail and have the honour to submit the following report :

Clause 2.—As the expression 'prescribed' has been used in this Bill, we consider it desirable to have a definition and we recommend that for item (*c*) of clause 2, the following item may be substituted :

"(*c*) after clause (10), the following clauses shall be added, namely :—

(11) 'Government' means the State Government.

(12) 'prescribed' means prescribed by rules made by the Government under this Act."

Clause 10.—We consider it desirable that before the authorised Officer specifies the kind of crop that should be grown on any land under an irrigation work, he should consult not only the Deputy Commissioner or Canal Officer but also the Irrigation Panchayet or Irrigation Board, if any, having jurisdiction over the area in question. We accordingly recommend that in the proposed section 16-A after the words "the Canal Officer" the words "and the Irrigation Panchayet or Irrigation Board, if any, having jurisdiction over the irrigable area in which the land is situated" may be added.

Clause 11.—The proposed section 17-A casts an obligation on owners and occupiers of land receiving water from irrigation works to carry out the directions of the Irrigation Officer relating to the maintenance of the

irrigation work and the use of the water supplied therefrom. We are of the view that it would ensure more efficient maintenance of irrigation works and quicker repairs of such works, if the Government take up the work of repairs and maintenance themselves and recover the cost thereof from the owners and occupants of the lands benefited from the supply of water from such irrigation work. We accordingly recommend the omission of the proposed section 17-A and the insertion of a separate Chapter by including a new clause in the Bill before the existing clause 16 (renumbered 18) as follows :—

"17. After Chapter VI of the said Act, the following Chapter shall be inserted, namely :—

CHAPTER VI-A

Of the Maintenance of Minor Irrigation Works.

30-A. In this Chapter, (i) "minor irrigation works" means such irrigation works as the Government may, from time to time, by notification in the *Mysore Gazette*, declare to be minor irrigation works for the purposes of this Chapter; and (ii) "Order" means an order published in the *Mysore Gazette*.

30-B. (1) If the Government considers that in the interests of the proper irrigation of lands in any area, the work of maintenance in a fit state of repair of minor irrigation works in such area should be undertaken by the Government and the cost of such maintenance or any part thereof recovered from the holders of lands in the area benefited by such minor irrigation works (hereinafter in this Chapter called the benefited area), the Government shall make a declaration to that effect.

(2) The declaration under sub-section (1) shall be published in the *Mysore Gazette* in English and Kannada and in such other manner as may be prescribed.

30-C. (1) On the making of a declaration under sub-section (1) of section 30-B, the Government shall maintain in a fit state of repair such minor irrigation works and every holder of lands in the benefited area, shall pay to the Government an acreage contribution at such rates, not exceeding three rupees per acre per annum, as the Government may, by Order, determine.

(2) Every Order made under sub-section (1) shall be laid before the Mysore Legislative Assembly as soon as may be after it is made, and shall be subject to such

modifications as the said Legislative Assembly may make on a motion made within seven days from the date on which the Order is so laid.

30-D. When the Government undertakes the maintenance of any irrigation work under sub-section (1) of section 30-C the Deputy Commissioner of the District shall, subject to such rules as may be prescribed in this behalf, levy from the holders of lands within the benefited area in addition to the assessment fixed under the provisions of section 112 of the Mysore Land Revenue Code, 1888, acreage contribution per annum at the rates determined under section 30-C. Such contribution shall be recoverable as a revenue demand."

Clause 12.—We consider it unnecessary to provide for the appointment by the Government of an Officer to hold an enquiry under the proposed section 25. But we are of the view that the Sub-Divisional Officer in the Public Works Department having jurisdiction should be the officer to hold the enquiry. We accordingly recommend that the proposed section 25 may be recast as follows:

"25. Whenever the construction, restoration or improvement of any irrigation work in any local area is proposed to be undertaken by the Government the Sub-Divisional Officer in the Public Works Department having jurisdiction over such area, shall hold an enquiry in the manner hereinafter provided, and shall prepare a scheme indicating the area irrigable by such irrigation work and specifying the rates of contribution and water rates which may be levied in respect of the lands in such area.

Explanation.—Improvement in this Chapter means only such improvement of an irrigation work as will materially enhance the supply of water available therein for irrigation."

Clause 13.—In view of the change recommended in clause 12, we recommend that in section 26 for the words "The Officer appointed to hold an enquiry" the words "The Sub-Divisional Officer holding enquiry' may be substituted. For the words "construction or' improvement" the words "construction, restoration or improvement" may also be substituted.

Clause 14.—For the reason aforesaid we recommend that for the words "the Officer" the words "the Sub-Divisional Officer" may be substituted.

Clause 15.—We are of the view that sub-section (4) of section 29 of the Act is unnecessary and may be deleted. We also consider that in view of the changes made in sections 26 to 28, the provisions will apply to the restoration of minor tanks, and hence the Minor Tank Restoration Act, 1916, may be repealed; and in the case of restoration of such minor tanks the maximum contribution may be fixed at Rs. 200 per acre. We accordingly recommend that for items (2) and (3) of clause 15, the following items may be substituted:

"(2) For sub-section (2), the following sub-section shall be substituted, namely :—

'(2) The contribution referred to in clause (*b*) of sub-section (1) shall not in the case of restoration or improvement of any minor tank exceed two hundred rupees per acre in respect of the lands in the benefited area;

Explanation.—'Minor tank' in this sub-section means a minor tank as defined in section 2 of the Tank Panchayet Act, 1911.

(3) in sub-section (3) for the brackets and letter '(*e*)' the brackets and letter "(*c*)" shall be substituted;

(4) sub-section (4) shall be omitted."

New Clause.—We consider that it is necessary to insert the words "of the District" after the words "Deputy Commissioner" in section 30, as the contribution and water rate will have to be recovered by the Deputy Commissioner of the District. We accordingly recommend the inclusion of the following clause after clause 15 and the renumbering of the existing clause 16 as clause 18:

"16. In section 30 of the said Act, after the words "Deputy Commissioner" in the two places where they occur, the words "of the district" shall be inserted."

Clause 19. (*Original clause 17*).—We are of the opinion that appeals from order of the Deputy Commissioner should lie to the Chief Engineer and we accordingly recommend

that clause 17 (renumbered as 19) may be recast as follows:—

"In section 45 of the said Act for the words "to the Revenue Commissioner" the words "to the Chie Engineer" shall be substituted."

Clause 20. (*Original clause 18*).—1. We have considered the provisions of the proposed section 45-A in some detail. We have come to the conclusion that liability for unauthorised use of water due to acts of persons who cannot be identified should only be cast on persons whose land has benefited from such use and not on others specified in this section. We accordingly recommend that section 45-A may be recast as follows:

"45-A. If water supplied through a water course be used in an unauthorised manner and if the person by whose act or neglect such use has occurred, cannot be identified, the person or all the persons whose lands have derived benefit therefrom shall be liable or jointly liable, as the case may be, for such charges as the Government may prescribe for such use".

2. 45-B. We are not in favour of the proposed section 45-B. We consider it unreasonable that for the act of a person who cannot be identified, other persons who have not been benefited from such act should be made liable for the waste. We accordingly recommend that this section may be omitted and subsequent sections suitably renumbered.

3. 45-C, 45-D *and* 45-E.—Consequential upon our recommendation to omit the proposed section 45-B, we recommend that in the proposed sections 45-C, 45-D and 45-E the words and figure "or section 45-B" may be omitted and we also recommend that in section 45-D the words "or waste" in the two places where they occur may also be omitted.

Clause 21. (*Original clause 19*).—Since we have recommended that the proposed section 17-A may be completely recast and no direction relating to maintenance or repair of irrigation works will be given by an Irrigation Officer to owners of lands, the words "or any order made under section 17-A occurring in the proposed clause (*X-a*)" may be omitted.

Clause 23. (*Original clause 21*).—We consider that in view of the amendments proposed to section 46 providing for a deterrent punishment of imprisonment and fine for offences under clauses (ii) and (xii) of section 46, it is not at present necessary to insert the proposed section 52-A, regarding the special rules of evidence. We accordingly recommend the deletion of the proposed section 52-A.

New Clause.—In view of the insertion of the new Chapter VI-A, a consequential amendment in section 55 of the Act is necessary. It is also necessary to add a clause for repealing the Minor Tank Restoration Act, 1916. We accordingly recommend the addition of the following new clauses :

"24. In section 55 of the said Act, after the word and figure "Chapter VI" the word, figure and letter "Chapter VI-A" shall be inserted."

"25. The Minor Tank Restoration Act, 1916, is hereby repealed."

The Bill was published in the *Mysore Gazette* Extraordinary dated 14th March 1951. In our opinion, the Bill has not been so altered as to require circulation.
